In high school, grades are not averaged...
Each semester is independent.

Factors in College Admissions

Honors, AP, IB, and DE Courses

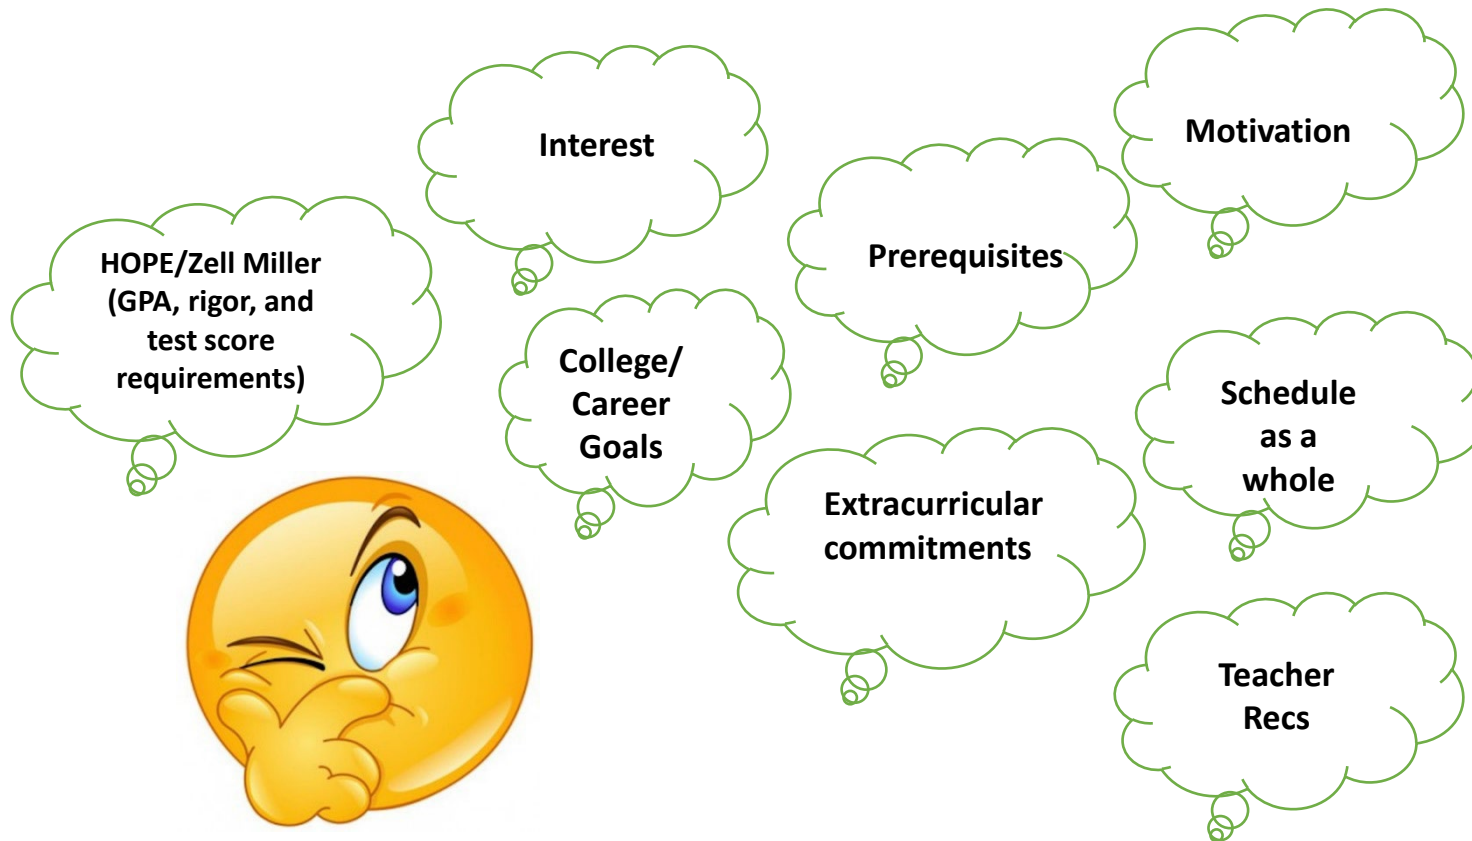

Honors courses: Honors classes are more rigorous, in-depth classes designed for student who want and can handle a challenge. *Classes go deeper than on-level courses*

Advanced Placement (AP) courses: AP courses are designed to give students the experience of an intro-level college class while still in high school. Students can get college credit for AP classes if they receive a certain score on the AP exam in May.

International Baccalaureate (IB) courses: Designed to give students the experience of an intro-level college class while still in high school. Students can get college credit for IB classes if they receive a certain score on the IB exam in May.

Dual Enrollment (DE) courses: Dual-enrollment classes enable high school students to take classes through a local college and potentially earn college credit.

Factors in Course Selection

Inside scoop: Look at this year's schedule/grades/stress level and compare it to proposed schedule for 2022-2023, taking into account any changes in commitments outside of school.
