

# PROBE COLLEGE FAIR

*[www.gaprobe.org](http://www.gaprobe.org)*

**Place: North Point Mall**

**(1000 North Point Circle, Alpharetta 30022)**

**Date: Tuesday, September 23, 2014**

**Time: 6:00 PM to 9:00 PM**

Come speak with college representatives on topics such as:

- Financial Aid
  - Housing
- Programs of Study
- Admission Requirements
  - Scholarships
  - Campus Life

Want to efficiently use your time at the fair and avoid repetitively completing personal information cards for the colleges? Pre-register through [www.gotocollegefairs.com](http://www.gotocollegefairs.com) and print a personalized barcode to bring to the fair.

(See reverse side for more information.)

## **Why should I pre-register for a college fair?**

The pre-registration process for students is simple and makes the college fair experience more efficient. You fill out a registration form just once, allowing you the opportunity to elaborate on interests, extra-curricular activities, etc. which you might not be able to provide on card after card at the fair. This automated process generates a personalized barcode that you print out and bring with you to the fair. College admissions representatives that you speak with can simply scan your barcode and your profile data will be automatically sent to them in a secure, electronic format for future follow-up. Spend your valuable time talking with admissions representatives and learning about colleges and universities.

## **How does my barcode work?**

Gotocollegefairs.com's quick and easy online pre-registration process encrypts your student profile data and generates a personalized barcode that identifies you. You print this barcode and bring it with you to any automated college fair for which you register. The college admissions representatives that you speak with can simply scan your barcode and your profile data will be sent to them in a secure, electronic format.

## **Is my contact information secure?**

Yes! Through the online pre-registration process, your student profile information is encrypted and a barcode is generated, which you print and bring with you to the college fair. Gotocollegefairs.com is FERPA compliant and holds your privacy as one of their utmost priorities. They do not sell, rent, or lease your information to anyone for any reason.

## **What if I lose or forget to bring my barcode to a fair?**

You will notice a "reprint" button at the top of the student registration page. If you lose your barcode, simply click this button and enter your phone number to reprint your personalized barcode again. It's really important for you to remember to bring the barcode to the fairs. Otherwise, you will have to go back to filling out cards at every table!

## **What if I want to edit or update my profile information?**

After your initial pre-registration is submitted to [www.gotocollegefairs.com](http://www.gotocollegefairs.com), you will receive a confirmation email containing a username and password. At any time, you can use this username and password to log in to your [gotocollegefairs.com](http://gotocollegefairs.com) account and make changes to your profile information.

## **What if my parent(s)/guardian(s) want to come to a fair with me?**

At the bottom of the registration page, you will see a button for a parent to register with you. This parent registration will be attached to yours, so admissions reps know who is who. Your registered parent will also have his/her own barcode to use at the fair, so you can split up if necessary to get to all the tables you want to visit.
